RE: Proceeding No. 15-149

Dear Chairman Wheeler:

Transformation is a key word we use in St. Ann, Missouri as our community is seeing a reinvigoration of economic development and prosperity. The Crossings at Northwest is just one example of transforming a former shopping mall into a growing business development center. One of our anchor tenants will be the soon-to-be-opened Charter Communications Customer Call Center which is approximately 134,000 square feet. This new call center will create jobs with competitive wages for our area which will in turn grow businesses that those employees frequent in our community. We appreciate the fact that Charter has chosen to bring back jobs into our country.

Charter also provides high quality cable TV, internet and phone services for our residents through their new digital service that has more than 200 HD channels and high speed internet of 100 megabits.

I am proud to be the mayor of St. Ann and witness its growth while staying in touch with its history. I would hope that other communities would see the same benefits that St. Ann has seen through Charter. In my opinion, I would be in favor of the Federal Communications Commission approving the Time Warner Cable and Bright House Networks transaction.

Sincerely,

Michael G. Corcoran
Mayor, City of St. Ann
